

In the last 10 years, we've saved our clients 21% in total claims costs.

Since 2008, we've helped California clients develop and implement customized medical provider networks achieving, on average, **a 21% reduction in total claims** costs.

Medical Provider Network Benefits:

- Medical control for the life of a claim
- Lower utilization review (UR) costs
- Lower litigation costs
- Reduced medical/indemnity expenses
- Increased return to work frequency

Our staff of knowledgeable professionals understand California's MPN process and its significant financial benefits. Our service solutions are customizable yet holistic, achieving optimal cost saving outcomes.

Here's What We Do:

- Conduct a Request for Information (RFI) from qualified Medical Provider Networks, to properly identify most qualified industry participants
- Launch a formal Request for Proposal (RFP) to both select three finalist candidates based on:
 - Ability to perform listed MPN duties and responsibilities on an annual basis
 - Maintain open lines of communication to program key contacts
 - Provide adequate proof of insurance
 - Offer competitive pricing consideration
- Perform formal implementation with finalist/selected MPN provider
- Create MPN service provider guidelines
- Provide monthly statistics and analytics to client
- Weekly evaluation and monitoring of the progress and participation of MPN provider
